The Wonder of the Age.

BEWARE OF IMPOSITION!

The Only Genuine and Original

IS THE

NORTH AMERICAN ELECTRIC

WASHING FLUID,

For Washing in either Hard or Soft Water.

THIS is the only genuine article to be found in the world; and possesses double the power of anything ever discovered, for washing clothes at a trifling expense, doing away with washboards at once. In fact it seems to be the long sought philosopher's stone, or universal solvent; seeming a magical preparation, its operation being of the most astonishing character. A common sized washing may be done with one gill of the Fluid, in less than two hours. It softens and removes the dirt, leaving the articles of the most brilliant whiteness; it being as harmless in its operations as pure water; and clothing will wear much longer than when rubbed to pieces by the common method of washing.

This Fluid is a powerful agent, to be used in all cases where soap is required, particularly for cleansing milk utensils, cleaning windows and paint, scouring floors. In short, it is beyond a precedent, as its use is universal in the washing world.

P. S.—All Colored Goods are rendered brighter by being washed in this Fluid; all Woolens are less liable to shrink, and thereby render it much softer than in the old way of washing.

None genuine unless the Labels contain their Signature.

The above article is warranted by the Manufacturers not to contain soda, lime, camphene, burning fluid, or acids of any kind, but to be purely an alkaline preparation of the most powerful character, possessing more than double the washing power of anything ever discovered, being perfectly harmless in vapor, without possessing the caustic properties of the miserable articles which flood the market, and in many instances disgust the people to that degree that they are unwilling to try a good article, when it really is to be found. The proprietors only ask a fair trial of this article, and are perfectly willing to forfeit any amount for a single failure in any instance where it is used.

Sealed Proposals

WILL be received until *MONDAY, the 30th day of June*, addressed through the Post Office, Box No. 21, Portland, Me., for supplying the Troops at this Post with fuel for the year ending June 30th, 1852, viz:

100 cords of Wood, and
100 tons of Coal.

The wood to be "*good merchantable oak*," sound and straight sticks four feet long (crooked sticks to be rejected) the whole to be delivered before the 31st day of October next, and to be corded and measured on delivery, at such places on the public grounds at this Post, as the Act'g Asst. Quartermaster may direct.

Eighty tons of the coal to be the best Peach Mountain, and twenty tons the best Lehigh; all to be well broken and screened and weighed on delivery at this Post, before the 31st day of October next.

The A. Asst. Quartermaster will be the sole judge of the quantity and quality of the fuel, and will be at liberty to reject the whole or such parts as he may think fit.

Two good securities will be required, whose names must accompany the proposals, which will be opened at Fort Preble, at 11 o'clock A. M., on the day above mentioned, when all interested can attend.

The proposals must be endorsed "Proposals for Fuel," and none will be received unless addressed as above. J. KELLOGG,

Real Estate for Sale.

THE undersigned will sell the following described Real Estate, situated at South Levant, in Penobscot County:

A single Saw-Mill, Lath and Stave Mill, nearly new, and in first rate repair.

A small Farm of about 28 acres of first rate land, all under good improvement, upon which there is a good house and barn, and out-buildings, and well situated for a physician, merchant or mechanic.

A farm of about 50 acres of good land, some 130 rods from the mills at South Levant, with a small house on the same, and some improvements; together with a number of smaller lots in the village, well situated for building lots.

Also a good farm of about 60 acres near Weston's Mills in Levant, with good buildings thereon, very pleasantly situated.

A tract of 672 acres of wild land in the town of Hermon, about nine miles from Bangor on the new County road recently located and now being opened, from Etna, through Carmel and Hermon, to Bangor. This is an excellent tract of land for farming.

Also, a new and convenient house and lot in Bangor, near the Levant road on Thomas' Hill, and near the Holls' dwelling.

The above property will be sold at good bargains and on favorable terms to purchasers. A portion of the purchase money will be required on the delivery of the deeds, and the remainder will be put on liberal time with notes secured by mortgage on the premises. A. A. WING.

PATENTS. American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON*,

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, (*whereby a Patent may be procured about six weeks earlier*), he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them; *matters in general of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen years'* practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, desirous of procuring Patents, assistance and information, which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1840.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. Late Commissioner of Patents.

Bounty Land—Pensions.

THE subscribers will pay particular attention to the prosecution of claims to Bounty Land, to which all, whether militia or regular troops, who served for one month in the war of 1812 are entitled. By the act of Congress of September, 1850, those who enlisted, volunteered, or were drafted for one year and served nine months, are entitled to 160 acres of land—and those, who enlisted, &c. for six months and served for four months, are entitled to 80 acres—those who served one month, to 40 acres. In the event of the death of the soldier, his *widow* or *minor children* are entitled to the bounty.

We will also buy the warrants and pay the highest prices, or at the option of the holder cause them to be located on the best lands of the United States at the West.

Terms moderate, and no charge made unless the claim is allowed.

WHITE MOUNTAIN STATION HOUSE, Peabody River, Gorham, N. H.

THIS capacious and elegant establishment, just erected expressly to accommodate travellers to the WHITE MOUNTAINS, will be opened on the first day of July next.

The House is situated on the line of the Atlantic and St. Lawrence Railroad, in the valley of the Androscoggin River at the junction of the Peabody River and the Moose River with the Androscoggin, and at the immediate base of the White Mountain Range, on the northeast side.

The confluence of three valleys at this point,—affords the most beautiful and imposing views of the Mountains in various directions, and a more expeditious and easy access to the summit of Mt WASHINGTON and other peaks, than can can be obtained from any other quarter.

The House is but FOUR HOURS ride distant from Portland, and NINE HOURS from Boston, by daily railroad trains over the Eastern, Boston and Maine, and Atlantic and St Lawrence roads.

An excellent public highway, suitable for Carriages of all descriptions, extends from this House seven miles up the Valley of the Peabody river to the eastern base of Mount Washington. At this point a convenient public house is now erecting for the accommodation of persons ascending the mountains. The actual ascent on this side, can be accomplished with remarkable facility.

The valley of the Peabody River, in its entire length, passes along the whole eastern base of the range, affording very near and uninterrupted views of all the great peaks, and of the remarkable ravines and gorges between them. The valley of the Moose river affords equally near and most attractive views on the north side. Tourists and artists of the most competent taste have pronounced the scenery upon the northern and eastern sides of the Mountains, to be much more wild, rugged and truly Alpine, than any presented on the other sides.—Pedestrians can make the ascent of Mount Washington from the Peabody river, and return, in from 6 to 8 hours.

To facilitate the ascent, a safe and convenient bridle path is to be opened to the summit of Mount Washington. From the central position of this House, at the confluence of great mountain valleys, the finest drives can be enjoyed in all directions upon good carriage roads, affording new and imposing views of the Mountains at every turn. The numerous mountain streams and lakes in the immediate vicinity abound in trout.

Six miles north of the House, upon the line of the Railroad, and accessible also by a carriage road are the celebrated BERLIN FALLS, on the Androscoggin, the most remarkable cataract in New England. The completion of the Atlantic and St Lawrence railroad to this station, opens an entirely new, easy and cheap route to the Mountains, on the north and east side,—while the remarkable PINKHAM NOTCH, extending southward from the house, along the whole eastern base of the Range, affords a convenient access to the valley of the Saco, and thence to the celebrated CRAWFORD NOTCH. Tourists from all parts of the country will find this the most expeditious and agreeable route for visiting the Mountains.

There is no Stage travel on the Route. Passengers are landed from the cars directly at the house. The Railroad train from Boston and Portland every day, will afford constant communication to and from the mountains. The Proprietors of the House will make arrangements with the Telegraph Companies and with Longley's Express, by which despatches and other communications can be transmitted to and from all parts of the country for the convenience of visitors.

The House is large and commodious, constructed with great regard to architectural elegance, and with all the conveniencies of a first class Hotel.—It has *one hundred and eight sleeping rooms*, and is newly and thoroughly finished throughout.

Families can be accommodated with suites of rooms.

The Proprietors having leased the House for a term of years, will do all in their power to promote the comfort and pleasure of their guests, and can promise a well supplied table, and clean and well ventilated rooms at moderate charges. In connection with the House is a large LIVERY STABLE, where good Horses and Carriages,—and Saddle Horses will be furnished at all times.

Also good Bathing rooms for the convenience of visitors.

Cape Cottage Re-opened.

ON the first day of May, this long celebrated MARINE VILLA, which with the Stables, Sheds, Bowling Alleys, &c., has been entirely rebuilt in a new style of architecture, fitted to the scenery of the neighborhood, was re-opened for summer boarders and transient company, on all days (Sabbaths excepted, when no transient visitors will be received on any account,)—the intention of the subscriber being to establish for the House a high character, so as to engage the hearty co operation of all, who may need repose, refreshment, sea bathing pleasant drives and walks, boating, fishing, bowling, &c., &c. Being built on the outer shore of Cape Elizabeth, all open to the sea, with vessels passing and re-passing all hours, and nearly under the windows; the White Hills of New Hampshire in full view on one side, with the United States Forts, water, batteries, harbor and shipping of Portland city and the broad ocean on the other, CAPE COTTAGE has long been regarded as one of the most beautiful and picturesque watering places in the world. By the kind notice of Mr. George Combe, in a book of travels in the United States, who spent a summer at this place, it has acquired a high reputation abroad.

The location is all that can be required for resort to the invalid or persons for pleasure; and the subscriber will not fail in his endeavors to make it in all respects deserving of the public.

P. S. Being only three miles from Portland, conveyance can be had at any time.

MISCELLANEOUS

For the Whig and Courier.

"Queen city of the East!" Thou art as fair
As storied cities of Italia are,
And though Venitian bards ne'er sung thy praise,
Yet thou are worthy of their sweetest lays;
For not unlike the Adriatic stream,
Thy rivers sparkle in the sun's bright gleam,
And murmur gently, though unheard, along,
'Neath many a bridge, and the city's throng.
Almost a Venice now; once thou wast quite—
When proud Penobscot leaped like bounds one night,
Raising yon roads beneath the earth and skies;
Was not "the toll-bridge," a bridge of sighs?
No gondolier passed with his barge along,
But "*jolly raftsmen*" sang a merry song,
And plied their oars where once equestrians rode,
And weary horses dragged their heavy load.

"Queen city of the East!" The thoughts of thee
Rest like a spell upon my memory;
And all the charms that twine around thee there,
Linger like sunbeams on the twilight air.
But when again I stop upon thy shore,
Will those glad voices greet me as of yore?
Will those loved ones I parted with in tears,
Meet me as they were wont in former years?
Methinks those waters, flowing to the main,
Will say, "thou com'st to seek those forms in vain,
Some have been laid within the mountain tomb
Upon our bank, where flowers in verdure bloom;
Others have gone to distant climes; a few
Still linger here, the constant and the true."

THE NEW COSTUME. The Cincinnati Chronicle says: "The new costume seems to be gradually winning its way into general favor and use among the ladies of this city. Every day this week there have appeared on the streets several ladies attired in this most fashionable style, and we have heard of numbers of others who have already provided themselves with pettiloons, but have not the courage to come out now lest they attract the gaze and ridicule of the crowd. These, however, will not have to wait long, as the ranks of the more courageous pioneers in the reform are filling up rapidly, and in a few months the new costume will be as common as the old, and no one will think of laughing at or ridiculing that the beauty and utility of which will be so apparent. Let the ladies, then, take courage and go ahead—we are converted to the reform, doctrine, and will sustain them.

The Palace of Glass—No. 10.

LONDON, May 30th, 1851.

At the conclusion of unnumbered visits, the inquiry has been raised in my mind thus, viz: which or what of all there is here, is of the most value and importance to us? The model house is certainly one thing. Health and comfort are the elements of national as well as individual happiness; and whatever conduces to both, cannot be otherwise than important to every civilized community. It is small but nevertheless calculated for four families. It embraces all the modern conveniences, favors health by perfect ventilation, and surpasses in economy any other pattern hitherto devised. A perfect structure, realizing all the suggestions of the Society instituted in London for improving the condition of the laboring classes, was built directly opposite the Crystal Palace, where every one goes for instruction in rural architecture, who is either solicitous to better the dwellings of tenants or economically improve his own.—It is made entirely of hollow bricks—which are triangular, of the ordinary length, and readily manufactured. Every floor is laid of these, on an arch of the same. Neither laths, mop boards or casings are required,—and consequently one of the excellencies is this—it is fire proof.—Water pipes are freely introduced; the sinks are iron;—the roof may be of glass tiles on iron rods—rafters, or flat and plastered with cement. Even the bedsteads are metallic. A conflagration could not occur.

This is a kind of house to be reared in all the narrow lanes, on narrow streets, in the old parts of Boston, and in the neighborhood of manufacturing establishments at South and East Boston. No insurance would even be necessary, and in respect to comfort, warmth in winter, a free circulation of air in summer,—complete exemption from the incursions of vermin, and the small expense to landlord or tenant, satisfies me this is one of the first, most deserving and desirable inventions of the day. Without the faculty of designating its parts or dimensions, which are of little consequence, all the facts in regard to materials, method of putting them together, &c, are indelibly fixed in my memory. Had I both capital and land, a block of such houses should be raised the present season, foreseeing how very quickly they would be taken up in preference to those of any other kind of construction, on account of being fire proof and at a low rent.

With respect to the next deserving improvement of equal consideration to all people under the sun, I shall leave it for others to proclaim, not daring to praise a pot, to the discomfiture of the owner of an iron bar. One gives it as his solemn opinion that a crooked tooth in a new patent rake is destined to change, for example, the whole domain of agriculture;—not that crooked teeth have not been known before—but because they were never twisted due east or west until that direction was developed by years of study and toil by the proprietor of the new Donegal rake.

Some meritorious improvements in light houses have been brought to the notice of the committee to which I have the honor to belong, and which will hereafter, it is to be hoped, engage the special attention of the appropriate department at Washington. Allusion is here made particularly to a floating revolving light of tremendous reflecting power, to be run up a mast of moored vessel. For that unfortunate spot on our coast, Minot's Ledge, it offers peculiar and prominent advantages, and before any costly undertaking is commenced, this working model should be thoroughly examined by those who are capable of deciding upon the claims of the various engineers who may offer their services.

There is room for a long and labored article on the cloth and cotton manufactures of the United States, in which it might be shown that the specimens here are in no way inferior to the best productions of this or the continental countries; but with such an array of mercantile and manufacturing talent as there is at this moment in London, from the western hemisphere, it would be presumption to trench upon their appropriate ground.

It must have been a welcome sight to Mr. Chickering's care, the unrivalled Boston piano manufacturer, on the day of his arrival, when edging his way into a crowd which surrounded his own instrument at which a distinguished German master was performing, to hear him unhesitatingly proclaim it to be the very best in the whole exhibition!

A sensation was raised a day or two since by the exploit of Mr. A. C. Hobbs, from New

9362

York. He picked the heretofore supposed unpickable Chubb lock,—which laughed at all English locksmiths and rogues. It is the reliance of bankers, and secures the archives of the government. He opened the chest in just fifteen minutes with some sort of crooked Yankee nail he carried in a vest pocket. He offered ten thousand dollars for the privilege of trying to open the lock of the safe in which the great regal diamond, belonging to the Queen, valued at two millions of pounds sterling is deposited nightly, at the close of the daily exhibition. But no one dare trust him near it with that strange looking hook.

A padlock is hanging up in Piccadilly, with a reward of two hundred guineas to whoever opens it by fair means. Mr. Aobbs proposes to give it a try the first leisure hour—and it is the opinion of those who know something of his extraordinary mechanical endowments, that he will quietly ease the lock of the money.

A Mr Herring, from New York, has a plain counting room safe in the exhibition, over which is a sign thus: *"This contains two hundred sovereigns. The key is at the office of the U. S. Commissioner—at the service of any one, and the money shall be the reward of the person who opens it."* Now these are regarded as queer doings. There the key hangs, and Mr Herring has posted off, to France, confident that his gold is in the only place where it will be perfectly secure.

Most of the time, the weather has been provokingly unsettled and wet. The sun sometimes peers out one side of a cloud, like a Turkish woman enveloped in a veil, and, before there is time for being thankful for small favors, away it goes again into a bank of fog.—There is always rain in England. Between the clouds and Her Majesty there is consequently no chance for an interregnum.

Societies vie with ladies and gentlemen in the highest walks of life, making London as agreeable as possible to strangers. This is expressly the fashionable season. Entertainments of the most brilliant description follow each other with the rapidity of charges from an assaulted fortress. It is scarcely possible to stand against one uninterrupted volley of hospitalities of this kind, without acknowledging that peace is preferable to war, and that the amenities and courtesies tendered especially to our countrymen, lay us under a marked and lasting obligation. TUESDAY, JULY 1, 1851.

American Enterprise.

It is surprising in how many ways American enterprise exhibits itself. It seems not to be bounded by place or circumstance. At home, engaged in the laudable pursuits of agriculture, manufactures or domestic trade, its hands hardened by honest toil—abroad, reaping the fruits of commerce and foreign adventure—upon the ocean, or upon the land, it displays the same untiring energy and persevering industry, and its efforts are crowned by the same rich rewards.

The rapid increase of our country, in population, wealth and power, is not attributable to the prosperity of a single industrial pursuit, nor to any single train of circumstances. The present condition, as well as the future destiny of this nation depends upon many causes combined.

Our glorious Constitution, framed by the fathers of the republic, with the purest motives at heart and actuated, as they were, by the loftiest principles of duty to their country and posterity, was unquestionably the true starting point on the road to national prosperity and happiness. With so good and strong a point upon which to hang their hopes and centre their affections, our people could exert their enterprise and industry in all the multifarious forms in which we now see them displayed, with an expectation of the best results.

But had the South American Republics been favored with Constitutions, coinciding in every feature with our own, still they never could have kept pace with us, in agriculture, in commerce, in the arts, in anything. The Anglo Spanish races, on the American Continents, lack the vital energy, the manly courage, and reasonable ambition, readily and successfully carrying its schemes into operation, that so characterize the descendants of the Saxon stock in North America.

Our religion, our education, the freedom of the press, liberality of sentiment among us, are so many circumstances in favor of our growth and prosperity. Our admirable geographical situation—away from the follies and turmoils of the monarchies of Europe—our great facilities for commerce and other pursuits—and our boundless resources—all serve to develope our national enterprise.

While at home the field invites to industry in every department of labor and skill, the superiority of Americans in accomplishing difficult and hazardous undertakings, induces them to try their fortunes in every land under the sun.

Our mechanics and artizans are becoming famous all over the world for their skill and inventions. An American is now in Sweden about to establish extensive lines of the magnetic telegraph through that country and Norway. He has purchased the privilege for fifty years. Americans, in several instances, are invested with the exclusive right of running steamers on some of the largest of the South American Rivers, for a series of years. American engineers are employed in Russia and Turkey.

Our countrymen have built the fastest sailing vessels and the swiftest steamships. Can they not manufacture our cloths and wares—fabrics for our own consumption? Let our government just put up the bars and we will see what American enterprise will do. We think, after a little while, we can get better articles of our own manufacture, and at full as cheap a rate as European producers furnish.

Diversity of pursuits is what is strictly necessary to ensure prosperity to any nation. All kinds of useful labor, protected and fostered by wise legislation, and backed by American enterprise, tend to no doubtful result. Open the door to enterprise, give every trade and profession a fair chance to start, in the world, and they will generally prosper, let there be ever so much competition among themselves. But if labor be fifty, or seventy-five per cent. lower in one country than in another, free competition of the former with the latter would be very unjust. The higher priced would, by such a course, be brought to a level with the lower.

American enterprise, it is true, would live through a few years of such oppression as this, but could it prosper and find a reward equal to its efforts? If the prices of labor were equal, in this country and in England, we have not the least doubt as to the success of our artizans and mechanics—they would not fear to compete with England, France or Germany on fair and equal terms. Because our people have great enterprise, is no reason why we should pauperise them, or refuse to furnish adequate protection to their industrial pursuits. If our flag floats proudly in every clime; if our sails whiten every sea; if our enterprise is seen and appreciated in every country in all the wide world, why should we not acknowledge it at home? Let our merchant vessels carry abroad as much,—or more,—of our fabrics and productions as they bring from foreign countries to our shores; or at any rate let us have the privilege of providing for ourselves, for thereby we can the better develop our resources.

Protection.

We clip the following sentence from a long article in the Boston Times, entitled "The Protective Dodge," which article is one of the most senseless humbug arguments in favor of the humbug doctrine of free trade, that we have chanced to read for a long time:

"Everything done by the whigs has its motive in a desire to advance the triumph of the protective interests, to make the poor pay more for what they eat and drink, for what they burn and with what they may be cooled, for what they wear and for what they make their habitation of, on all that they use, from the veil of the bride to the shroud of the infant."

In this article the friends of protection are assailed as "lunatics." Whether lunatics or not, the laboring men of our country understand, not only their own interests, but also the unenviable position of those treacherous free traders, who, with a semblance of friendship for industrial pursuits, are constantly exerting themselves to put money in the pockets of European capitalists. When the *Times* asserts that everything done by the whigs has its motives in a desire to make the poor pay more for what they eat and drink, etc., it gives place to an utter and palpable falsehood, such as has been resorted to for years by politicians of that stripe in support of a groundless doctrine.—Anti-protective men were returned to Congress from Pennsylvania and other parts of the Union, by lying and deceit, as they well know, and by their votes the infamous Tariff bill of '45 was passed. It is a game they cannot play successfully again.

New Jersey Strawberry Trade. In addition to the large quantities of this favorite fruit sent from Monmouth and adjacent parts of West Jersey the present season, the New York Express states that long trains of wagons loaded with it are coming half hourly through the night over the Hoboken Ferry. On Friday last one hundred and thirty two of these wagons passed over, each containing many thousands of baskets, principally from the neighborhoods of Hackensack, Paterson, New Durham and Burgen. The average price now is three cents a basket. One gardener near Bergen is said to have cleared $1,600. A large profit connected with their growth in this State is the making of baskets. Though the price is only one cent each, yet the profits are stated to be very considerable.

What became of the Whale. One of the speakers at the Vermont Whig Convention, to illustrate how the Free Soil party had run into the democratic ditto, so as to be lost and unrecognized, said there were two men once discussing some religious point, one said to the other, 'I suppose you've read about Jonah, and how a whale swallowed him, and that he afterwards came out of the whale's belly and got ashore?' 'Oh yes,' said he, 'certainly, I read all that.' 'Well,' said his opponent, '*did you ever afterwards hear anything of the whale?*'

The Queen's Fancy Ball. Among the persons invited to attend Queen Victoria's Fancy Ball, are noticed, the names of Mr Lawrence, the American Minister; Mr. Van Alen, late U. S. Charge d'Affairs to Ecuador; Mr Davis, Secretary to the Legation; Col. Lawrence, Attache to the Legation. Mr Lawrence was to appear as old Governor Winthrop, of Massachusetts; Mr. Van Alen as Governor Stuyvesant, the last of the Dutch Governors of New York; Mr Davis as Wm. Penn; and Col Lawrence as Lord Baltimore.

Elopement. A day or two since, Mr. A. G. Woodward, of New London, N. H., about 20 years old, eloped from that town with his niece of sixteen. In consequence of parental obstructions, the course of true love did not run smooth"—and so they concluded to run off.—The absconding infants were pursued with hot haste—but their love was much hotter and propelled them far ahead. Before they were overtaken, they quietly slipped into the matrimonial noose, at Norwich, Vt.

☞ "The gold fever," says the Hallowell Cultivator, "still prevails in many parts of the State. There is no doubt that gold mining in Maine, at present, is not very profitable business." So far as money making is concerned, we would advise our friends, that have anything to do, to leave the diggins alone in their glory. We apprehend that gold is rather scarce at present in the "northern placers."

Early Rising. One should rise early at this season, in order to enjoy the pure breath of the morning, and catch the first rays of the rising sun. An early walk or horseback ride is very conducive to health. The fresh air, and the abundant music of singing birds as old Sol ushers in the day, are sufficient inducements for early rising. It is pleasant to

"Hear the birds on every bloomy spray,
With joyous music wake the dawning day."

London Parks. All the Parks in London contain 6533 acres. Windsor Park is the largest, containing 3300, and the next in size is Richmond Park which contains 2253. The question may well be asked, says Mr. Downing, is New York really rich enough, or is there absolutely not land enough in America, to give our citizens public parks of more than ten acres?

☞ The Ladies of Rev. Mr. Leonard's Society, of Orono, will hold a Levee on the afternoon and evening of the 4th of July. The ladies of that Society are very enterprising, we wish them success.

New York, June 29.

A despatch from Norfolk, last evening, states that the Committee of the workmen at the Gosport Navy Yard, appointed to wait upon the Secretary of the Navy had returned from Washington and had succeeded in effecting an amicable adjustment of their difficulty with the Commandant of the Yard.

Heavy Robbery.—On the 26th inst, the jewelry store of A. S. Williams, of Newark, N. J., was entered, and jewelry to the amount of $1,000 stolen. Forty-nine gold watches, besides four hundred to five hundred gold rings, were taken.

Depression of Manufactures.—The Salem Gazette announces that the general depression of manufacturing industry has so far touched the Naumkeag Steam Cotton Co. in that city, that no dividend will be declared for the last six months' work.

Horrible and Brutal Outrage. The most distressing and brutal outrage ever known in these parts, was perpetrated last Thursday evening, on a canal boat between the White Hills and Hawley. The facts are reported to be briefly as follows:

Mr. Wilson and wife, of Salem township in this county, took passage on a canal boat to go as far as Hawley, the nearest point from which they could reach their home. Owing to some hindrance the boat made slow progress, and a late hour of night overtook them between the above named places. The captain wishing to look after another boat in which he was interested, and there being no other man on board, requested Mr. Wilson to stand by the tiller until his return, which he promised, should be in a short time—Mrs. Wilson being at that time in the cabin. During the absence of the captain, three boatmen observing a female on the boat, boarded it, and without ceremony declared that they had come on board to accomplish a worse than murderous design. Mr. Wilson protested against any such attempt, saying she was his wife, but all to no purpose. Two of the men seized hold of him as he was in the act of defending his wife, and threw him down on the stern deck, and both sat upon him, holding a revolver to his head, and threatening to blow his brains out if he again resisted or made any alarm; the third one then went in the cabin, when a long and desperate struggle ensued between him and the defenceless wife.

Her cries for help and protection could not be answered by her husband in that perilous and painful moment, although he was but a few feet from her side. She being fully overcome with exhaustion and fear, fell into a fainting fit, and the inhuman wretch succeeded in violating her person. He then came on deck and assisted in holding the husband while the second went into the cabin, and repeated the violation, and in like manner they managed all round, till they had violated her person five times. They then left the boat and came on to Honsdale, where constable Walker, of Hawley succeeded in arresting one of them. The others, apprehensive of danger left town and fled to the woods, where the constables with a few assistants, followed and succeeded in arresting and conveying them to prison. They are all in the county jail awaiting trial. Their names are Thomas Reilly, David Rarratan and John Stafford.

Mrs. Wilson is a respectable woman and has been married only a few months.—[Honesdale Herald, 20th inst.

A Splendid Meteor. Last evening at five minutes past nine o'clock, there appeared in the constellation of Scorpio, a most magnificent and brilliant Meteor. Its disc was as well defined as the full moon, and about one half the diameter. The color of the front half was a bright whitish yellow, passing into a red flame color, and then into a blue, where the tail commenced, which was about one quarter the width of the body, and nearly twice the length of the diameter of the body.

It burst out at once in full splendor, just west of the body of Scorpio, about on the horizontal level of Antares, and passed with a very slow motion towards the southeast, right through the tail of Scorpio, retaining the same brilliancy till it disappeared behind a wall within two or three degrees of the horizon, right under the arrow of Sagittarius. It was several seconds in passing over this short space, as some remarks were made by the observers present during its flight. Its motion was not entirely in a straight line but slightly concave below.

It is to be hoped that others at a distance from Washington, who may have seen this Meteor, will give an account to the public of its course through the stars, or send their observations to the Smithsonian Institution.—[Nat. Int.

Death of a Veteran. Stephen Smith, of Northfield, a soldier of the Revolution, died at that place on Sunday, the 22d, at the age of 100 years and 8 weeks. Mr. Smith possessed the full use of all his faculties until his hundredth birth-day, upon which occasion, a sermon was preached, which, it is supposed, affected his mind, and during the past few weeks, he has been sinking to the grave. He was a gentleman of the old school, and retained his polite and affable manners to the last. He was one of the first Jackson men in the State, having declared himself for him at a time when the popular feeling was strongly in favor of other candidates, and his party hardly numbered enough to nominate a full list of officers—[New Haven Journal.

Effect of Eggs on the System. Our neighbor of the Vox tells us of a masculine inhabitant of this city, who has lately, eaten so many hen deposites, in one form, or another, that he cannot by any struggle resist the impulse of going to bed at the moment the hens go to roost, before sundown—and of course springing out of bed to his feet, the very moment the cock crows in the morning! We shall probably soon hear that this ambitious gallinaceous aspirant on compulsion, has given several vociferous cacklings or involuntaries on the bugle of chanticleer.—[Lowell Courier.

A young preacher who had just started in his travels as an itinerant, was one evening holding forth on the Deluge, and after describing the manner in which Noah built the Ark, and filled it with animals of every kind, by pairs, closed in a solemn tone, thus: "You must know, my dear hearers, that it was an arduous task for Noah and his sons, to get a *pair of whales into the Ark.*"

Great Fire and Loss of Life.

New York, June 29.

One of the three ranges of stables, in Sea street, belonging to the Bowery and Grand street line of stages, was set on fire last evening and wholly consumed. Two hundred horses were turned into the street, when becoming frightened by the fire and tumult, they ran wildly through the crowd, trampling down all who came in their way. Many persons were more or less injured, and some it is reported, fatally. We have the names of but three:—Mr. Griswold, 267 Seventh street, shockingly mangled; Mr. Lockwood, of Hose Company No. 16, severely injured; John Mallison, 319 Ninth street, also badly hurt.

Cholera.

New York, June 29.

A despatch from St. Louis, dated last evening, states that at Independence the cholera is on the decrease, but at Westport it is more prevalent than at any previous time. At Plumbute, also, five or six were dying daily.

Yesterday, the Missouri river was rising and had overflowed its banks. The whole of the Levee, at St. Louis was still covered with water.

Toronto, June 28.

In the Canadian Parliament on Friday evening, Attorney General Fontaine announced that the French party will oppose the secularization of the Protestant clergy reserve.

This announcement is regarded at Toronto as significant of a determination to bring about a dissolution of the union of the Provinces.

GROVER & BAKER'S Patent Sewing Machine.

(Patented Feb. 11th, 1851.)

THE Inventors and Proprietors, after a long time spent in perfecting and simplifying their invention, and having now received United States' Letters Patent on the same, are prepared to offer for sale the exclusive Right of Territory for States, Counties and Cities, or Machines, with the right to use. This is entirely an original Invention, nothing at all similar having ever been offered to the public; the right of the invention is therefore uncontested. Our Machine, by the use of two needles, supplied with thread from spools, forms a new stitch, which will not open or ravel,—in fact, a fast stitch. It is adapted to the sewing on all kinds of fabrics, as also on leather in straight, circular, or other seams. It is capable of being worked at great speed, and requires but little power. By means of the feed carriage, which is compact and convenient, the stitch may be regulated to any length. The needle strikes perpendicularly upon the table of the Machine, and affords an opportunity for sewing as far in from the edge of the cloth as may be desired. The Machine is worked by treadle, hand, or power; is easily regulated, and being compact and simple in construction is not liable to get out of order. We are confident that our Machine, on trial, will corroborate all the statements here made. The price of one of our Machines, complete, (which will be carefully packed to go to any part of the world,) is one hundred and twenty-five dollars. Applications for right of Territory, or the Machines with right to use, as well as all inquiries respecting them, and all orders enclosing money for machines, will be promptly attended to. All letters to be post paid, and addressed to the Proprietors and Patentees.

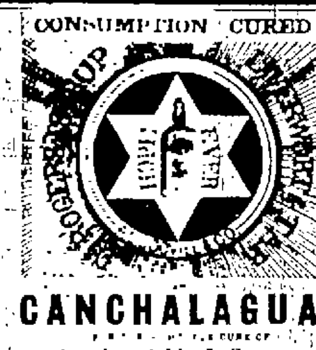
CONSUMPTION CURED



CANCHALAGUA;

FOR THE CURE OF Coughs, Colds, Influenza, Asthma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

NOTHING LIKE IT!

Cure follows Cure!

READ THE EVIDENCE!!

The above invaluable Medicine has now been before the public sufficiently long to have its virtues *thoroughly tested*. It has been used by all classes of the community, under every possible variety of circumstances, and has everywhere proved itself a most powerful and efficient Cough Medicine. *Lung Diseases* of all kinds, yield to its influence as mists pass away upon the rising of the Sun. This is no fiction. We give you below, letters from persons who are now living in the State of New York, and who declare, over their own signatures, *all that we could desire to say in its favor*. Those who can read their statements and yet remain incredulous, must be beyond the reach of human testimony.

A LOVELY YOUNG LADY Cured of Consumption!

☞ The following is from the pen of WM. H. LEVISON, Esq., the distinguished Editor of the *U. S. Military and Naval Argus*, under date of New York, Jan. 26, 1850. What could be more conclusive?

"It is seldom we permit ourselves to occupy a space in these columns to speak in praise of any article in the patent medicine way, but when we see the life of a fellow-creature saved by the use of any medicine whatever, we consider it as our right, if not a duty, to give a simple statement of facts, that others may, in like manner, be benefitted. The case which has induced us to pen this article, was that of a young lady of our acquaintance, who, by frequent exposure to the night air, contracted a cold, which settled on the Lungs before its ravages could be stayed. (This occurred two years ago this winter.) Various remedies were used, but with very little effect or benefit. The cough grew worse, with copious expectoration, and the sunken eyes, and pale, hollow cheeks, told plainly that PULMONARY DISEASE was doing its worst on her delicate frame. The family physician was consulted, and although he would not admit to the young lady that she really had the CONSUMPTION, yet he would give no encouragement as to a cure. At this crisis, her mother was persuaded to make use of a bottle of Dr. Rogers' Compound Syrup of LIVERWORT, TAR, and CANCHALAGUA, and we are happy to state she was *perfectly cured* in less than three months by this medicine alone, *after every hope was destroyed*. It is useless to comment on such a case as this, for the simple truth will reach where polished fiction never can. If any doubt the authenticity of this statement, let them call at this office.—*U. S. Military and Naval Argus Office, No. 70 Chatham St., N. Y.*"

COUGH AND DISEASE OF 11 MONTHS STANDING, CURED, AFTER BEING GIVEN UP TWICE *By Eminent Physicians!*

Albany, June 9th.

Messrs. A. L. Scovil & Co.—I herewith forward to you a *Certificate of a Cure*, effected by your Compound Syrup of Liverwort, Tar, and Canchalagua. *The Cough and expectoration was of fourteen months standing*, and had baffled the skill of several of our eminent physicians in New York, Albany, and Cooperstown. I am the person in whom the cure was effected, and as I had previously no faith in patent medicines, I have since tried it on others, and have become satisfied of its value. Mine was as GREAT A CURE as ever was performed, as I had, during my sickness, *been given up twice by my physicians*. I have now commenced my business, after taking, I think, about *eight bottles*.

Yours, respectfully, THOS. C. FAULDER.

Bleeding at the Lungs Cured.

☞ SEE HOW *PROMPTLY* IT ACTS!

Statement of Mr. A. Lang, Baker, No. 185 Pearl street, N. Y.—A few days before last Christmas, I was taken unwell, and soon commenced bleeding freely at the Lungs. I called in a Homoeopathic Physician, but his medicine did not seem to help me. I read your advertisement, and thought I would try *Dr. Rogers' Syrup of LIVERWORT, TAR, AND CANCHALAGUA*. Before I had taken up the *third bottle*, my bleeding had stopped, my cough was gone, and I felt well as usual. My health is now good. I consider it a most excellent medicine, and cordially recommend it to my friends. [*This statement was made to the Proprietors, March 12th, 1850.*]

☞ This whole paper might be filled with letters, similar to the above, *from those who have been cured*.

☞ Be sure to ask for *Dr. A. Roger's Syrup of LIVERWORT, TAR, and CANCHALAGUA*, and let no other be palmed on to you.

CAUTION.—*None genuine*, unless there be on the buff wrapper a *note of hand*, signed with a *Pen*, by A. L. SCOVILL & CO.

For sale wholesale and retail, by A. L. SCOVILL & CO., Proprietors at their *Principal Depot*, GOTHIC HALL, *No. 316 Broadway, New York*, to whom all orders for the Medicine, and letters relating to agencies should be addressed, *post paid*.

THE PILES!

A CURE FOR LIFE SECURED!

DR. UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES!

THE VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public.

The Electuary contains no *Mineral Medicine, no Aloes, Colocynth, Gamboge,* or other powerful and irritating purgative. No fear of taking cold while under its influence, no change in diet necessary. If taken according to directions a *cure for life is guaranteed.*

Another certificate added to the hundreds that have already been received of the efficacy of Dr. Upham's Electuary. New York, August 25, 1846.

Messrs. Wyatt & Ketcham—Gents: For several years past I have been troubled with piles, a very costive state of the bowels, indigestion and weakness of the system. But my complaint not being so severe as to disable me from business, and as I had of physicians and patent medicines, that until this Spring I never used any medicine or applied to a physician for relief. The Piles being then so severe that I allowed several operations to be performed, without any benefit. Determined after this to try other means, I read an advertisement of a cure guaranteed by the use of Dr. Upham's El[illegible]

NEW YORK, July 27, 1849.

Messrs. A. B. & D. Sands—Gentlemen: Words can but feebly express my feelings in conveying the pleasing intelligence that my wife is restored to perfect health by the use of your invaluable Sarsaparilla.—She was afflicted with a severe cutaneous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor, the head, face and body were covered with scales like those of a fish, the hair fell out in large quantities, and walking caused the most excruciating agony, as it affected the joints more severely than any other part. She suffered also a long time from an affection of the liver, connected with general debility, and a prostration of the nervous system. Physicians of both Europe and America had exhausted the usual remedies, without effecting a cure, or scarcely affording relief, and the best medical skill was unavailing, until she happily used your Sarsaparilla. The disease was pronounced all through, but her whole system internally and externally, was altogether deranged; but so complete has been the cure, after using the Sarsaparilla for six weeks, and taking in all less than one dozen bottles, that she now enjoys a better health than for years previous to taking the Sarsaparilla. My object in making this communication is, that all who have suffered as she has, may know where and to whom to apply for relief, (and that not in vain) as a complete cure will be the result. My wife unites with me in heartfelt thanks, and believe me, gentlemen, yours sincerely,

FERRIER NAZER, 32 Nassau-st.

N. B.—For a corroboration of these facts apply to Mr. H. McCunn, at Messrs. Bowen & McNamee's store, Broadway, N. Y.

City and County of New York, ss.—Ferrier Nazer being duly sworn, doth depose and say that the foregoing statement, to which he has subscribed his name, is true and accurate, to the best of his knowledge and belief.—Sworn and subscribed, this 27th day of June, 1849, before me, C. S. WOODHULL, Mayor.

BOSTON, Mass., Aug. 31st, 1849.

Messrs. A. B. & D. Sands—Gentlemen: Last spring I was attacked with Rheumatism in the lower part of my body, extending down to my feet, and so severely was I affected that I could not stand or move myself. I tried all the different medicines advertised for this disease, among which were several kinds of Sarsaparilla, but none of them did me any good, and I gave up all hope of being cured, when a friend advised me to try Sands's Sarsaparilla. I consented, not expecting it would cure me; but after using twelve bottles, I have the happiness of stating to you that the pain has left me, I can walk without any assistance, and I am gaining in strength every day, which I have no doubt is owing entirely to the use of your Sarsaparilla. I send you this voluntary certificate, that the afflicted may know what medicine to use to alleviate their sufferings and effect a cure.

Yours very truly,

JOHN BANVARD, 31 Chamber-st.

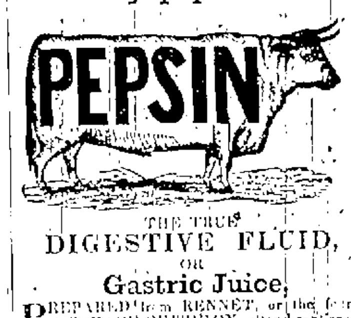
Another Scientific Wonder!

DR. J. S. HOUGHTON'S Great Dyspepsia Curer!



THE TRUE

DIGESTIVE FLUID,

OR

Gastric Juice,

PREPARED from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa.

This is a Great Natural Remedy for *Indigestion* and *Dyspepsia*, curing after Nature's own Method, by Nature's own Agent, the Gastric Juice. PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food*, the *Purifying, Preserving* and *Stimulating* Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice, in its Chemical powers, and furnishing a *complete* and *perfect substitute* for it.—By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree *curious* and *remarkable*.

BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs will be *softened, changed and digested just in the same manner as they would be in the human stomach.*"

Half a teaspoonful of pure Pepsin infused in water, will digest or dissolve *Five Pounds of Beef in about two hours* out of the stomach.

Dr. HOUGHTON'S PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

PRIVATE CIRCULARS, for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice.

Price, in Fluid form ONE DOLLAR per bottle.

PEPSIN IN POWDER,

Sent by Mail, *free of postage.*

For convenience of sending to all parts of the country, the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powder, with directions to be dissolved in water by the patient. These Powders contain just the same matter as the bottles, and will be sent by mail, *free of postage,* for ONE DOLLAR, sent (post paid) to Dr. J. S. HOUGHTON, Philadelphia, Pa.

☞ *OBSERVE THIS!*—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa.

MORSE'S

COMPOUND SYRUP OF

Yellow Dock Root

OCCUPIES the front rank among the proprietory of Medicines of this country for completely curing Canker, Salt Rheum, Erysipelas, and all other diseases arising from an

Impure state of the Blood.

Also, Liver Complaints, Catarrh, Dyspepsia, Headache, Dizziness, Coughs, Soreness and Tightness about the Chest, Bronchitis or Hoarseness, Dryness, and a tickling sensation about the throat, and is used with unprecedented success in all cases of

Female Weakness and General Debility.

Strengthening the weakened body, giving tone to the various organs and invigorating the entire system.

If the testimony of thousands of living witnesses from all parts of the country can be relied upon, it is singularly efficacious in

CURING ALL HUMORS,

and restoring debilitated and broken down constitutions. It is *purely vegetable* in its composition, and so accurately combined in its proportions, that the chemical, botanical and medicinal properties of each ingredient harmonically unite to

PURIFY THE BLOOD.

It has removed many chronic diseases which have baffled the skill of the best Physicians, and has cured Canker, Salt Rheum, Erysipelas and Scrofula, which Sarsaparilla syrups entirely failed to make the least impression upon.

It has been tested in many cases of

CANCEROUS HUMORS.

The most obstinate Cancers have been cured by this medicine. We say that it is a valuable medicine in all

BILLIOUS COMPLAINTS.

It removes all obstructions in the circulation, rendering the Liver free, active, and healthy. It removes Palpitation of the Heart, and relieves in all cases of Asthma, and may be used in all climates and in all seasons of the year.

This Syrup is prepared only by C. MORSE & CO., 102 Fountain street, Providence, R. I., and sold by thousands in the United States, Canadas, &c.

THE

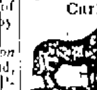
GENUINE BALM OF COLUMBIA.

IF you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balm. Age, state, or condition appears to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tubes are filled, by which thousands (whose hair was grey as the Asiatic eagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequaled. It holds three times as much as other so-called hair restoratives, and is more effectual.

☞ *Caution.*—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

TO OWNERS OF AND DEALERS IN HORSES

Carlton's Founder Ointment,



For the cure of Founder, Split Hoof, Hoof-bound Horses, and contracted and Feverish Feet, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Kicks, &c., on horses.

CARLTON'S RING-BONE CURE,

For the cure of Ring Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy.

☞ This Ring Bone Cure and the Founder Ointment are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety-nine cases out of one hundred any of the above complaints. They have been used by farmers, liverymen, stage proprietors, and others, with the most marked and decided success.

FOR FEMALE AND MALE.

Dr. LARZETTE'S JUNO CORDIAL, or Procreative Elixir, prescribed as an effectual restorative in cases of Debility and all irregularities of nature. It is all that it professes to be, viz: Nature's Great Restorative and remedy for those in the married state without offspring. It is a certain cure for Seminal Emissions, General Debility, Gleet, Weakness of the Genital Organs, Nervous Affections, Leucorrhea or Whites. As an invigorating medicine it is unequalled. Also, a certain remedy for Incipient Consumption, Indigestion, loss of Muscular Energy, Physical Lassitude, Female Weakness, Debility, &c. It is warranted to please the most sceptical of the above complaints, and restore vigor to those without *offspring*.

☞ *Caution.*—This celebrated medicine cannot be genuine unless the fac simile signature of Judson & Co. (N. B. the *only* American agents) is on the wrapper of each bottle.

DEAFNESS.

Use Dr. LARZETTE'S ACOUSTIC OIL, for the cure of Deafness. Also, all those disagreeable noises, like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching deafness. Many persons who have been deaf for ten, fifteen or twenty years, and were subject to use ear trumpets, have, after using one or two bottles, thrown aside these trumpets, being made perfectly well. It has cured cases of ten, fifteen, and even thirty years standing of deafness.

☞ Ask for Dr. LARZETTE'S ACOUSTIC OIL, and take no other.

Hay's Liniment for the Piles.

The worst attack of the Piles are effectually and permanently cured in a short time by the use of the genuine Hay's Liniment. Hundreds of our first citizens throughout the country have used this Liniment with complete success. It is warranted to cure the most aggravated cases.

☞ *Caution.*—Never buy it unless you find the name of Comstock & Co. upon the wrapper, proprietors of the genuine article, or you are cheated with a counterfeit.

RHEUMATISM.—

COMSTOCK'S Nerve and Bone Liniment, and Indian Vegetable Elixir, is warranted to cure any case of Rheumatism, Gout, Contracted Cords and Muscles, or Stiff Joints, strengthens Weak Limbs, and enables those who are crippled to walk again. Use this article and be cured, or go without and suffer, as you please.

Connell's Magical Pain Extractor—the World's Wonder—Pronounced so by all who have ever used it.

White Swellings, Inflammation, Pain in the Back, Weak Limbs, Tender or Sore Feet, and all Scrofulous Sores are speedily and permanently cured by Connell's Magical Pain Extractor; Affections of the Lungs, Ague in the Face, Breast, Tic Doloureux, Chronic Sore Eyes, Blistered Surfaces, &c. It is equally beneficial in all kinds of Inflammatory Diseases, such as Sore Nipples and Eyes, Sprains, Rheumatism, White Swelling and Ulcers, Bruises, Burns, Chilblains, Erysipelas, Biles, &c.

ELEGANT AND INVALUABLE

Articles for the Toilet

Bogle's Hyperion Fluid,

For Restoring, Preserving, and Embellishing the HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.

BOSTON, Feb. 15, 1847.

Mr. Wm. Bogle—Sir: The preparation, invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and cleans the skin of all impurities, without producing any Ultimate deleterious effects, which are so frequently the result of many well-known patented compounds. * * *

WINSLOW LEWIS.

It is an indispensable article for the Ladies, kept keeps the hair in place and curl, and the skin of the scalp free from dandruff and scurf. For children it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and as superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant" of California, an article used by the natives of that country for washing, and thus, the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the "rough and ready" traveller, or the toilet of the most fastidious connoisseur.

Bogle's Hebeatona,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate and blooming. It is equally efficacious in protecting the skin from the hot suns of summer, and freezing blasts of winter, and is the most fragrant and delicious article to be found for the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are warranted superior to anything yet invented; but, if not found so on proving on trial, the money, in all cases, will be refunded by my Agents.

BRANT'S PURIFYING EXTRACT

The Greatest

BLOOD PURIFIER

IN THE WHOLE WORLD!

☞ Price $1 per Bottle, or Six Bottles for $5.

It is now put up in QUART BOTTLES, of the same price and medical efficacy as when in small bottles. Each *large* bottle contains SIXTY-FOUR DOSES, and the medicine is *now* so Strongly Concentrated that only One *Tablespoonful* is required at a Dose—three times a day—this one bottle lasts Twenty-One Days, which is much longer than a bottle of any other medicine in taste, because there is required of this a less quantity at a dose.

The great *Superiority* of this Blood Purifier over all other medicines, consists in a great measure in its possessing as a part of its compound, the *powerful* Medical Virtues of some Rootsand Bark

Indian Roots and Barks,

which no other medicine possesses. These are the most certain Purifiers of the Blood that were ever known to either *Indian* or *white man*, and these being compounded with the *strongly concentrated* Extracts of

Sarsaparilla, Yellow Dock,

CHERRY AND SASSAFRAS BARKS,

make this Vegetable Extract, not only the *greatest* Blood Purifier, but also a *cheaper* medicine of great odds than any other. It is *cheaper*, because a *quantity* of it, in a bottle, may be bought for One Dollar, which is much larger, and will cure Ten Times more Blood-disease than One Dollar's worth of any other medicine.
